THE
MOON-
WALKER

Susmita is the only space entrepreneur in the world to have started companies on three different continents. Her start-up Earth2Orbit focused on facilitating American and Japanese launches on the PSLV (Polar Satellite Launch Vehicle) rocket from 2008-2016, and since 2017, has been supporting global climate action by using earth observation data analytics to make cities and agriculture climate-smart

SUSMITA MOHANTY,
SPACESHIP DESIGNER

Known for revolutionising the influence of women in the space industry with her own Earth2Orbit, India's first private space start-up, Susmita is the epitome of success for millions of women across the globe. The Odisha-born entrepreneur, who has already found a place in BBC's 100 most-influential women, broke all the myths surrounding business and women, especially in the field of science, to become a successful entrepreneur.

MASTERS OF
Destiny!

IRA SINGHAL, IAS

Her world may be a bit complicated but Ira Singhal, who topped the UPSC exams in 2015, knows how to make things simple. She suffers from scoliosis (an abnormal lateral curvature of the spine), with 62 per cent locomotor disability—her height has been compromised and she is not able to fully twist her arms—but that didn't deter her to chase her dreams. She fought against all odds with a smile. Talking of the challenges, Ira says, "getting people to accept me as an equal—to treat me as part of the system, not someone, who needs to be pitied", was the biggest challenge. But she asserts, "if you act that there's nothing different about you, people will eventually believe and respond to you like that." I've always believed that I am equal to everybody". A true#Shero

THE
FIGHTER

I had to fight for my rights. It's very convenient for the world to treat you as someone lesser. I had to prove multiple times that I'm equal, in fact, I had to perform outstandingly, just to be treated equally IRA SINGHAL, on how she carved her own destiny

"The woman who follows the crowd will usually go no further than the crowd. The woman who walks alone is likely to find herself in places no one has ever been before." This quote by Albert Einstein holds true for these young women, who defied all odds to shape their own fortune in this male-dominated society. We salute them on this International Women's Day...

#SHEROES

HIMA DAS, ATHLETE

From humble beginnings at her father's rice fields to the sprint tracks of Tampere in Finland, and then the podium of the 2018 Asian Games, Hima's story will make Bollywood script writers run for their money. Born into a family of rice farmers in Kandhulimari village in Assam, Hima fought against all odds and earned success, after years of sweat and hard work. The family's financial constraints, lack of training, and equipment didn't hamper her to pursue her passion, as she practised for hours in the paddy fields till Nipon Das, a coach with the Directorate of Sports and Youth Welfare, spotted her talent and took her under his wing in 2017. Her hard work bore fruit, when she became the first Indian to win gold medal at the IAAF World Under-20 Athletics Championships in Finland in 2018. And the rest as they say is history!

THE
DEFIER

I used to run barefoot in my village some time back. Now, I have branded shoes with my name on it HIMA DAS, the girl with golden feet, after Adidas endorsed her

GITA GOPINATH,
ECONOMIST

The story of Gita Gopinath, chief economist of the International Monetary Fund (IMF) is a journey of a middle-class Mysuru girl, who became a world-class economist through her hard work, focus and grit, breeding intellectual leadership. Daughter of a farmer-entrepreneur, Gita's first choice was not economics. In one of the interviews, she said, "I cannot say that I always wanted to be an economist. As with most students in India, who have to decide at the age of 18 what area to specialise in, I chose economics by chance. I was a science student till class XII and then my parents figured that I should join the IAS for which economics was a good subject. So, that is really how I came to it." Well, she may not have chosen it but she mastered it, and is now, one of the leading scholars in exchange rates, with a strong grasp on world economies.

THE
GAME
CHANGER

Recognised as a Young Global Leader by the World Economic Forum in 2011, and in 2014, listed among the top 25 economists under 45 by the International Monetary Fund, Gita, in the words of Christine Lagarde, MD, IMF, is "phenomenal, not just in her leadership of the IMF but as a role model for women around the world"

AISHWARYA SRIDHAR, WILDLIFE
PHOTOGRAPHER

The first and the youngest Indian woman to win the Wildlife Photographer of the Year award in 2020, Aishwarya epitomises patience, grit and determination, required to survive in this tough world. A passionate photographer, Aishwarya showed these qualities, when she captured thousands of sparkly-yellow orbs dancing around a tree under a star-studded night sky in the dense forests of Bhandardara in Maharashtra in 2019, through her lens that won her the award. But mind you, it wasn't easy for 23-year-old Aishwarya, as she had to make way through the thorny bushes and venomous snakes to spot her muse—the fireflies. Alone in the dense forests in pitch dark, she overpowered her fears to chase her dream. That's Aishwarya Sridhar—a woman, who challenges herself to be the BEST!

THE
PERFEC-
TIONIST

Be patient when you are on the field. Keep working hard. Success will definitely be yours. Try to be creative and keep your image different from the rest AISHWARYA SRIDHAR, on how to be the best in the field

AVANI CHATURVEDI, AIRFORCE PILOT

Scripting history, flying officer Avani Chaturvedi recently became the first Indian woman to fly a fighter aircraft, a MiG-21 fighter jet in Jamnagar, Gujarat. A small-town girl from Rewa in Madhya Pradesh, Avani dared to dream BIG in a man's world, and succeeded through persistence, perseverance and fighting spirit. One of the three in the first batch of female pilots, along with Bhawana Kanth and Mohana Singh, who were inducted in the Indian Air Force fighter squadron on June 18, 2016, Avani has shown the world that if given equal opportunities, women can break every barrier. Sky is the limit for them!

Spread your wings and fly high
AVANI CHATURVEDI's signature statement

Here's how to shed the 'LOCKDOWN KILOS'

The coronavirus virus lockdown took a toll on our mental as well as physical well-being. The quarantine period was a tough one for people. There is a steep rise in the number of people who have gained a lot of weight during the pandemic, owing to many challenges and disruption in their regular routine. Long work from home hours contributed to a sedentary lifestyle where people were required to sit for hours without any movement. Moreover, less sleep, stress, unhealthy diet and overeating also contributed to weight gain. The quarantine period also led to change in mental state of people that contributed to emotional eating and people struggled to stick to their fitness routine.

So, a sedentary lifestyle, lack of physical activity coupled with faulty eating habits and stress are the culprits behind weight gain. To get your weight and health on track again, here are some easy-to-do tips from health and wellness experts.

These weight loss strategies will help you get back on track. Suggested by Sukhvinder Singh Saggu, Bariatric surgeon, Apollo Spectra Delhi, here are some vital tips to battle the bulge, stay fit, and lead a healthy life:

EAT IN MODERATION

Make sure you reduce consumption of high calorie fried foods and sweets. Your kitchen is the best weight loss centre; exercise portion control and eat healthy.

WALK AROUND AT HOME

If you are working from home and are required to talk on the phone then just try to walk around your house while doing so. Try to set a walking target every day and see to it that you complete it. Set smaller goals. It is the need of the hour to exercise at home. You can also try other fitness activities such as aerobics, weight training, or zumba at home to keep your weight in check.

TRY TO DE-STRESS

It is a known fact that stress can give a tough time to your body. Likewise, many studies also suggest that stress can invite weight gain. If the reason behind your weight gain is stress then you need to calm down. It will be imperative for you to improve your resilience. Try to motivate and support yourself when a challenging situation arises. You can de-stress by doing yoga and meditation. You can also try some breathing exercises that will help you calm down. Do whatever works for you: listen to your favourite music to unwind, dance, cook or do gardening. Follow a proper routine too for the sake of your physical, mental and emotional well-being.

JOURNALING

This is always a good idea. You will have to write down whatever you eat, how much oil you use, or what you have in your snack time. It's understood that your eating habits must have gone for a toss, so it is essential for you to avoid emotional eating. Plan what you will have for breakfast, lunch, and dinner. If you get any midnight cravings, then try to indulge in healthy options like yoghurt, crackers, makhana, and try to drink a lot of water. Try to limit junk, spicy, oily, and processed foods. Set proper meal timings. Do not eat your dinner late and then sleep immediately. Portion control is equally important. Eat a lot of fruits and vegetables too to stay hale and hearty.

ADD SOME ADAPTOGENS TO YOUR FOOD

If life in the pandemic is stressing you out, there's more you can do to heal yourself than just pop pills. Across the world, adaptogens are becoming popular to help people combat the negative effect of stress. Here's all you need to know about these miracle herbs.

What are adaptogens?

These are natural substances mostly derived from plants and are therapeutic in nature. There is a wide range of adaptogens found across the world – ginseng, rhodiola roots and even age-old Indian remedies like ashwagandha, turmeric and tulsi.

How are they good for you?

Most adaptogens work as natural remedies, reducing stress and fatigue, boosting energy and attention and keeping the body youthful. At the same time,

since many of these products are not checked for purity, it is always advisable to consult your doctor before starting to consume them.

How do you use adaptogens?

There is no specific rulebook for this. A lot of these substances can be added to the stuff you drink – from tea and coffee to smoothies and lassi. For example, adding ashwagandha powder to your morning cuppa will give you the perfect boost for the day ahead. Other adaptogens like mushrooms can be eaten in the food you cook.

STAY HEALTHY

Desi drinks for building immunity in spring

Dr Archana Batra, dietitian and physiotherapist shares a few recipes for you to stay healthy in spring – as the transition from winter to slightly warm weather may affect health and challenge our immune system. Here are some immunity-building recipes for you to try at home.

KASHMIRI KAHWA

This drink is full of spices and flavours. The aroma of spices refreshes you and soothes you. This drink builds immunity, helps in digestion, and improves skin as well.

INGREDIENTS: 2 tsp Kashmiri tea leaves, 3-4 pcs green cardamom, 3 tsp sugar, few dried rose petals, 1pc cinnamon stick, 2 tsp crushed almonds

METHOD: To prepare kahwa, first boil 2 cups of water in a pan. Then add

crushed cardamom and cinnamon to water and boil water on a medium flame for 3 minutes until the flavours get infused and the colour of water changes in water. Now add sugar into it with a few dried rose petals, again boil it for next 1-2 minutes. Add crushed tea leaves into the water and stir for 1 to 2 more minutes. Add crushed almonds to serving cups and strain Kashmiri kahwa in the cup. Serve fresh with some crunchy and healthy snacks.

DATE AND ALMOND MILK

Dates are a healthy alternative to sugar and comes with many health benefits. Almonds are a good source of Omega 3 and vitamin E. This drink is easy to make and a healthy choice for all seasons.

Ingredients: 1cup milk, cinnamon

stick, 6-7 soaked almonds, 1 date, 4 black peppercorn, pinch of turmeric.

Method: Blend all the ingredients except turmeric (remove the seed from date) and make a thick paste. Now put milk in the pan and add turmeric and boil it. When the milk is boiled, add the paste to it and keep it stirring on medium flame to avoid sticking on bottom. Put off the flame when the drink is a little thick. Now pour it into a glass and serve with garnished almonds as a healthy evening snack.

How to control your chocolate consumption

If you are a chocolate-holic and can't resist eating lots of chocolate here are some tips to help

Keep tabs on how much chocolate you eat. Chocolate is high in calories, therefore, a couple of squares a day should be your daily 'dose'.

Go for 70% plus dark chocolate and try not to eat white and milk chocolates as these have little or no cocoa in them and loads of sugar.

Make your hot chocolate from scratch with unsweetened cocoa, water or non-fat milk, then add in your sugar or sweetener. That way you will be able to see how much sugar you consume.

Alternatively try low-calorie drinking chocolate.

A. Frankenstein
B. The Canterville Ghost

C. Help for the Haunted D. Dracula

Q.3) Which of these novels was written by a qualified architect?

A. Time to Die
B. Odd Number
C. The God of Small Things
D. The Tower

ANSWERS

1. A) William Faulkner
2. D) Dracula
3. C) The God of Small Things

Women who inspire

The one woman who has inspired me the most in recent times is actor Vidya Balan. In the present times where everyone has a say and an opinion about everything, one thing especially women face is body shaming. The grit and strength she showed when she was criticised for her size was truly amazing. She is a classic example to show that there is nothing like a perfect size to be amazing.

SRIVIDHYA SRINIVASAN, Teacher, Blossoms International School of Excellence, Chandanagar

Sudha Murthy always inspired many women to lead a simple life and listen to their conscience. She is a chairperson of the Infosys Foundation, engineer, teacher, philanthropist or to sum up, she is a bunch of talent. I am one of the women who takes pride to say that Dr Sudha Murthy is my role model. Some of the motivating life lessons which I have learnt from her are to be yourself, to be simple and genuine, be supportive and balanced and to never give up.

B SURYAKALA, Facilitator, Indus Valley International School, Hyderabad

Inspiration is drawn from women who render fruitful service, shaping lives with the most powerful tool, education. Few pioneers that come to my mind are none other than Vimla Kaul, Rosni Mukherjee, Geeta Dharmarajan, Vasudha Prakash who are silently letting their work change the education scenario for marginalised children by funding schools to make them literate enough to get employed to earn a decent living.

MICHELLE PARKI, HOD English (Primary), Johnson Grammar School ICSE, Habsiguda

The woman who inspires me is the queen of Jhansi, Rani Lakshmi Bai. I am impressed by her courageous acts. In her childhood she went against the male dominated society and learnt martial arts. She had the power and capability to rule a kingdom like any other king. The best thing I like in her and wish every woman to have is bravery, courage and boldness.

R SRIVARSHA, class IX, PBDVA Model School, Hyderabad

I have always admired chivalry and when I think of it, Rani Lakshmi Bai comes to my mind. I truly like her unstinted love towards her motherland and her bravery. She believed that women are very powerful and can shake the Britishers if they stand united. We need more Lakshmi Bais in today's India to root out corruption and be able to live in a society free from evils.

SUNIR NAGI, Principal, Pallavi Model School, Alwal

Michelle Obama is my biggest inspiration. She is such an amazing woman and has a voice for empowering others. She is a brilliant role model and I think everyone should look up to her. She once said, "When they go low, we go high," and this quote resonates with me a lot.

THEERTHA PRAVEEN, class IX C, Samashti International School, Hyderabad

A woman is an important part for our social, economic, political and cultural development. Sania Mirza is a very popular and professional tennis player who became the first ever Indian woman to win the title of Women's Tennis Association (WTA). She inspires youth who are interested in lawn tennis and became the role model of many upcoming tennis players.

G V S KEERTHANA, class X, Jain Heritage A Cambridge School, Kondapur

When I read Harry Potter for the first time, I portrayed the author J K Rowling as a true genius with a whimsical mind. Rowling conceived the idea of the series while travelling on a train, thereby proving that creativity can strike anywhere. She was rejected by 12 publishers before getting her first book published. She went on to become one of the most beloved children's book authors in the world, which is truly inspirational.

SANGHITA DUTTA, class VIII B, Delhi Public School, Miyapur

My inspiration is actress Sushmita Sen for her clarity of vision. Her inspiring words made me think that my life matters, my voice matters, my opinions are going to shape the way things move forward. So make things look good and don't lose yourself, find who you are and then get out there and change it. The only thing that matters is how you perceive yourself or what you do.

SABREENA FATIMA, teacher, Springfields International School, Hyderabad

The woman who inspired me the most is Neerja Bhanot. It definitely takes a lot of guts to choose between escaping a situation or to save others. "Mar jaaongi lekin bhagoongi nahi" she had said and proved it. Her bravery and the courage she showed touched my heart deeply. No caste, creed or religion matters, only humanity is important.

GARIMA SAHU, class XI, Jubilee Hills Public School, Hyderabad

SHATTERING STEREOTYPES

BY ANKITA RATH

They say one day is not enough to celebrate women. That may be true. But how many times do we thank our mothers for their selfless love, or the teacher for that extra care and concern to make every child a better human, or other women we come across in our lives? Women are often regarded as the epitome of love, compromise and sacrifices. But one tends to forget that women can also symbolise courage, strength, power and ambition. We don't say men are any less, but the challenges for women are bigger as even till date there are many who are denied equal rights to education and employment. They are con-

stantly subjected to inequality, pay disparity and harassment and yet continue to fight it all with a brave face. So, let there be at least one dedicated day when people brush their conscience and take a few minutes to acknowledge the struggles and success of women in their lives.

Today, on Women's Day, we mention some women achievers from a range of different professions, who broke the barriers of biased societal norms, stereotypes, taboos and every hurdle that they could find in their path and carved a significant niche for themselves in this patriarchal society. They are an inspiration to us and many.

MITHALI RAJ

Mithali Raj, captain of women's national cricket team, became the first women in the world to score a double century in Test cricket. She scored 214 runs against New Zealand in Wellington in 2004.

KIRAN MAZUMDAR-SHAW

Kiran Mazumdar-Shaw is one of the self-made women billionaires in the country and was ranked 60th in the Forbes' list of most powerful women in the world. The leading entrepreneur started her own company Biocon in 1978 and is the chairperson and managing director of Biocon Limited, which is one of the largest biopharmaceutical companies in India. She is also a proud recipient of Padma Shri and Padma Bhushan.

KALPANA CHAWLA

Kalpana Chawla has been an idol for many. She became the first Indian woman to venture into space. She first flew on Space Shuttle Columbia in 1997 as a mission specialist and primary robotic arm operator.

ARUNDHATI BHATTACHARYA

Arundhati Bhattacharya became the first woman chairperson of The State Bank of India (SBI). She has also been ranked as Forbes' 25th most powerful woman in the world. Under her leadership, the bank introduced a two-year sabbatical policy for women employees for child and elder care. She also initiated free vaccination against cervical cancer to the woman employees of her company.

JUSTICE M FATHIMA BEEVI

Justice M Fathima Beevi was appointed as the first woman judge in the Supreme Court of India in 1989. She stood out as a glaring example of a woman who made it to the top echelons in the male dominated judiciary system.

ARUNIMA SINHA

Arunima Sinha became the first female amputee to scale Mount Everest, Mount Kilimanjaro, Mount Elbrus, Mount Kosciuszko, Mount Aconcagua, Carstensz Pyramid and Mount Vinson. Her remarkable journey can inspire many.

Mother Teresa is my inspiration because she did hard work and helped poor people. She is the most amazing woman in the world and she has influenced me to help change the world so it can be a better and happier place. Two beautiful qualities that I loved most in Mother Teresa were her humility and her kindness.

SYEDA FATIMA BUTOOL, class VII, VIP's International School, Charminar

When it is time, a woman can exhibit great entrepreneurial and financial management skills. From times immemorial this has been proven true in case of many women whose courage and valour stood the test of times. One such woman who I like is Nirmala Sitaraman, our present Finance Minister. A woman with a mission and vision but quite unassuming. I like the way she approaches the issues unperturbed.

KIRANMAI DAHAGAM, vice-principal, Pallavi Model School, Boduppal

The world is full of inspiring women whose struggle, passion and work have influenced millions. One such woman was Marie Curie whose discoveries broke new ground in physics and chemistry. She became the first person to get Nobel honours twice. I find her to be inspiring because she worked endlessly towards her passion in science at a time when there were not many women scientists. It did not stop her and she fought against all odds and gave the world new discoveries.

SULTAN ARIF MOHIUDDIN, class VIII, VIP's International School, Falaknuma

HERCULEAN BENCH STRENGTH

With the rise of several young players like Washington Sundar, Mohammed Siraj and the maverick Rishabh Pant, India have been on a roll both at home and abroad

NOBODY'S PLACE IN THE TEAM IS GUARANTEED

As soon as the fourth and final Test between India and England finished and the presentation ceremony was over in Ahmedabad, batsman K L Rahul went to the pitch on which the final Test was played and started smashing a few balls. Rahul, inducted into the Test squad after the second Test and also capable of batting in the middle-order, was reduced to being almost a traveller as India's batting line-up kept dishing out one batsman after another, coming in and rescuing India in the first innings of this Test.

This was nothing new. Over the last couple of months, in Australia and in India, the Indian middle-order and lower middle-order comprising Hanuma Vihari, R Ashwin, Rishabh Pant, Washington Sundar, Shardul Thakur and Axar Patel have helped India keep up the fight and win series. A couple of those stars from the Australia series, Vihari and Thakur, who did well aren't even in the squad now.

Despite that, India's nos. 6, 8 and 9 showed grit, determination and importantly fearlessness and fought back to help India coast to a match-winning total. Off-spinner Ashwin,

who won the man of the series award, said that the competition for places within the team is tough but the general atmosphere within the camp is one of excellence.

Our bench-strength is as good as it has ever been and that is a great sign for Indian cricket. The idea was to have youngsters to come in and perform with fearlessness. It has helped take the situation on. When the transition happens eventually it is not difficult for Indian cricket and the standard doesn't fall below what we have set over the last few years.

These are the kinds of situations where the player makes a mark.
VIRAT KOHLI, India skipper

It is pretty hard for the person who is going through the phase. You can't take your place for granted and have to keep fighting. General atmosphere in the India camp is open for excellence. The management tries to get the best out of players. Indian cricket finds itself in a place where a lot of cricketers are coming and performing. We found ourselves in some sticky situations in all these Tests and every time somebody has managed to stand up.
R ASHWIN

India's youngsters haven't just showed courage but also plenty of skills. While there were doubts over Pant's skills as wicketkeeper behind the stumps on Indian pitches or whether Axar Patel will be able to step into the shoes of the injured Ravindra Jadeja, both stepped up. Patel also performed with the bat, putting up a century partnership with Sundar. Patel finished with 27 wickets in three Tests with four five-wicket hauls while Pant impressed with his wicket-keeping and batting.

"Axar came to replace Jaddu and I thought he delivered really well, deserved every bit of his success. I thought his bowling was excellent and accurate for the series," Ashwin said on Patel, before praising Pant. "What Rishabh has gone through in his career over the last year or so, it has been amazing. He has been under a lot of pressure, being compared to legends of the game," added Ashwin. It is clear and evident that these youngsters love pressure and perform under it.

SUNDAR'S DAD UPSET AT TAILENDERS

Twice in the four-Test series against England that concluded on Saturday, Washington Sundar has been left a few runs short of a century by the Indian tail.

I don't understand why people are surprised at his batting. I have been hearing. He can face the new ball. But we are ready for whatever the Indian team asks him to do.

What I am really disappointed about are the tailenders. They couldn't stay on for even a brief while. Suppose India were playing, needing 10 runs to win, wouldn't this have been a huge mistake. There are millions of youngsters watching, they shouldn't learn what the tail-enders did.

It is not about technique or skills. It was a matter of courage. England were tired, Stokes was bowling at 123-126. They were not bowling at a lethal pace.

M SUNDAR, Washington Sundar's father

Photo: PTI

WTC: SURE WE CAN GET A POSITIVE RESULT IN THE FINALS

For people like me, Pujara, Rahane, and Ishant, who did not play the 2019 World Cup, this is literally the World Cup. I also saw Ishant speaking about it. I am happy for every member for making it to the finals. I am sure we can get a positive result if we adapt quickly because we just have one match as the final. It would have been nicer if we had three, but we just have one, we have to live with that and we will try to give our best shot
R ASHWIN

Feeling great to be a part of this team. Really happy, the kind of effort we have put in 2-2.5 years for this championship, it is a tremendous achievement that we have made it to the final. Actually, I am looking forward to the final.

ISHANT SHARMA

Boys have worked really hard, it has been more than two years that all this began. We are hopeful that we will do well in the WTC final, it is an amazing feeling for all of us to qualify for the WTC final.
CHETESHWAR PUJARA

Photo: PTI

23 Test wins by Virat Kohli at home.

The Indian skipper surpassed Steve Waugh (22 wins) on the list of captains with most Test wins at home.

27 wickets picked up by Axar Patel in just three games with four five-wicket hauls. Patel equalled former India cricketer Dilip Doshi's 40-year-old record of most Test wickets in the debut Test series.

10 Test series win at home in a row by Virat Kohli which is the joint-most by any captain alongside Ricky Ponting.

409 wickets taken by Ashwin. He surpassed West Indies great Curtly Ambrose (406) on the list of highest wicket-takers in Test cricket.

30 five-wicket hauls in Test cricket for R Ashwin.

He is on the sixth spot with James Anderson on the list of bowlers with most Test five-fors.

12 wins registered by India in the World Test Championship.

It is the most by any side and will now play New Zealand in the final at Lord's in June.

QUIZ TIME!

Q1: In which year did Liverpool FC win their most recent Premier League title?

a) 2017 ☐ b) 2018 ☐ c) 2019 ☐ d) 2020 ☐

Q2: Who won the 2021 Australian Open Men's title?

a) Roger Federer ☐ b) Daniil Medvedev ☐
 c) Novak Djokovic ☐ d) Kevin Anderson ☐

Q3: The most overall catches 102 by _____

a) Suresh Raina ☐ b) Shikhar Dhawan ☐
 c) Robin Uthappa ☐ d) Rohit Sharma ☐

Q4: Other than Romania and Belgium, which country has reached three Davis Cup Finals without winning the title?

a) Sri Lanka ☐ b) India ☐
 c) Bangladesh ☐ d) Pakistan ☐

Q5: In November 2019, Jose Mourinho was appointed head coach of which football club?

a) Manchester United ☐ b) Chelsea ☐
 c) Arsenal ☐ d) Tottenham Hotspur ☐

Q6: How many Olympic gold medals has Isabell Werth won?

a) Six ☐ b) Five ☐ c) Four ☐ d) Three ☐

Q7: In 2017, Serena Williams broke the record of which player to win most women's singles Grand Slam titles in the Open era?

a) Margaret Court ☐ b) Martina Hingis ☐
 c) Steffi Graf ☐ d) Monica Seles ☐

Photo: GETTY IMAGES
