## FACTOID

# 60°C

Could be the temperature in many parts of the world by 2050, warns the World Economic Forum (WEF) in its latest report. "This level of extreme heat would have been almost impossible in the absence of human-caused global warming," the report said

Some extreme weather events, such as heat and coldwaves, intense precipitation events, and regional droughts have become more frequent and intense

## BEWARE!

- By 2030, climate change-related illnesses is likely to kill 250,000 people each year
- According to the report, up to 8 per cent of the global population will witness a severe reduction in water availability in the near future
- Bangladesh, Vietnam and Thailand will be threatened by annual floods, sparking mass migration
- By 2100s, Florida will disappear and south Spain will become a desert
- Up to 140 million people are expected to be displaced by 2050 because of food and water insecurity as well as extreme weather

**Greenhouse gas emissions reached a new high last year, putting us on course for an average temperature rise of 3 degrees Celsius. According to experts, 2020 could be the hottest year yet on record, as temperatures continue to soar**

## CAUSES & CHALLENGES

**1** One of the biggest contributors to climate change is pollution. ABOUT 100 COMPANIES ARE RESPONSIBLE FOR 71% OF GLOBAL EMISSIONS, according to a Carbon Majors report

**2** The biggest challenge that our environment faces is climate change. Polar ice caps are melting SIX TIMES FASTER than they were in the 1990s. Greenland and Antarctica have lost more than 6.4 trillion ice between 1992 and 2017. Sea levels, on average, have risen eight inches since the 1880s

■ The commitments made in Paris in 2015 were far from enough to limit temperature rises to 1.5 degrees Celsius. If we don't change course, we may be headed for a catastrophic temperature rise of more than 3.0 degrees this century. Therefore, I call on all the world leaders to declare a State of Climate Emergency in their countries until carbon neutrality is reached  
**Antonio Guterres, UN Chief**

■ Since world leaders pledged to limit global temperature rises to 2 degrees Celsius in 2015, a lot has happened, but the action needed is still nowhere in sight. We are still speeding in the wrong direction. The global decision-makers are wasting time creating new loopholes with empty words and creative accounting  
**Greta Thunberg, climate activist, on the urgency to deal with climate change**

## NEWS IN CLUES

**He is the first Indian actor to be paid ₹1 crore for a single film**

**CLUE 1:** His original name is Parthasarathy Srinivasan

**CLUE 2:** He has the highest number of films submitted from India for Oscars

**CLUE 3:** A movie of his was listed by the Time magazine among the Top 100 best films of all time

**ANSWER: KAMAL HAASAN.** The actor, who kickstarted the first phase of campaigning for Tamil Nadu assembly polls, due in April-May 2021, questioned the need for a new parliament building, asking PM Narendra Modi about the need to spend ₹1,000 crore "when half of India is hungry due to coronavirus pandemic triggered loss of livelihoods".

Seven of Haasan's movies have been India's official entry to the Oscars in the Best Foreign Language Film category. He starred in Mani Ratnam's 'Nayakan' in 1987, which was included by the Time magazine in the 100 best films of all time in 1997

## INTO THE FUTURE

### SUPERHIGHWAY SYSTEM DISCOVERED IN THE SOLAR SYSTEM!

In a pathbreaking discovery, astronomers have revealed a new 'superhighway' network running through the solar system, which, according to them, could speed up space travel in the future. The scientists looked at the orbits of millions of bodies in our solar system and computed how they fit together and interact.

### THE SIGNIFICANCE

- The highways allow objects to move through space much faster than previously thought possible – for example, such routes can drive comets and asteroids near Jupiter to Neptune in less than 10 years
- Scientists are also hopeful that space agencies could make use of these superhighways to speed up travel time from the Earth to distant parts of the solar system

### ROBOTS CAN ENCOURAGE PEOPLE TO TAKE GREATER RISKS

Even as the scale of interaction between humans and technology increases, a new research has shown that people tend to take more risks when prodded by a robot.

### IT'S A TECH WORLD

The research showed that robots can encourage people to take greater risks in a simulated gambling scenario than they would, if there was nothing to influence their behaviours.

➤ Researchers believe that further studies are needed to see whether similar results would emerge from human interaction with other artificial intelligence (AI) systems, such as digital assistants or on-screen avatars

➤ According to researchers, while on one hand, the results might raise alarms about the prospect of robots causing harm by increasing risky behaviour, the data also points to the possibility of using robots and AI in preventive programmes, such as anti-smoking campaigns in colleges and universities, and with hard to reach population, such as addicts

### HAVE A SOFT SPOT FOR 'THE FAST AND THE FURIOUS': NOLAN

#### ENTERTAINMENT

Like millions around the world, actor Christopher Nolan has revealed that he too loves the 'Fast and The Furious' movies. The action-thriller series of movies has been around since 2001, and has spawned eight films (with two more to go) and a spinoff.

The ninth Fast and The Furious movie, 'F9', is slated to release on May 28, 2021

I have a soft spot for Justin Lin's 'Tokyo Drift,' the third iteration in the franchise that was released in 2006. The fun thing about those movies is that even as they've gotten bigger, as sequels have to do, actually, we're the people making sequels get bigger and bigger

— CHRISTOPHER NOLAN

### No winter session of Parliament this year: Government

It's official. The government will skip this year's winter session of Parliament due to the coronavirus pandemic. The Parliament will meet for the Budget Session in January next year. This was confirmed by parliamentary affairs minister Prahlaad Joshi in his reply to the Congress leader Adhir Ranjan Chowdhury. Adhir Ranjan Chowdhury had earlier sent a letter to the Lok Sabha speaker Om Birla demanding that a short winter session of Parliament be convened to discuss the issues arising out of farmers' protest over the three farm bills passed during the monsoon session in September.

- In the past two years, the Budget Session of Parliament began in January— January 28 in 2018 and January 31 in 2019
- This year the monsoon session was delayed due to coronavirus and was held in September instead of July
- Besides, it was cut short by 10 days due to the Covid-19 situation
- Earlier, the Budget session of Parliament had to be cut short due to Covid-19 outbreak in the country

## BTS 6th most-tweeted about people worldwide in 2020

K-pop superstar BTS has made it to the sixth most-tweeted about people globally, data from Twitter showed, in apparent proof of the seven-member group's strong influence in the social media platform.

**1** BTS also topped the Twitter's list of the most-tweeted about K-pop accounts globally this year for the fourth year in a row, followed by boy band Exo and girl group Blackpink

**2** Twitter added that a tweet of BTS member Jungkook covering a song by US musician Lauv in May was the second most-retweeted tweet worldwide this year at over 1.6 million times, followed by the tweet of American actor Chadwick Boseman's death

**3** BTS has also smashed records this year, with its new 'Life Goes On' becoming the first Korean song to top Billboard's main singles chart

### BLUE IVY CARTER MAKES HISTORY AS ONE OF THE YOUNGEST GRAMMY NOMINEES

Like parents, like daughter— Blue Ivy Carter, the eight-year-old daughter of Beyoncé and Jay-Z, has been nominated for a Grammy Award. Carter is listed as a featured artist for her role in the song 'Brown Skin Girl' alongside Beyoncé, singer WizKid and SAINT JHN. This is Carter's first Grammy nomination. It makes her one of the youngest nominees in the awards show's history. She turns nine in January, ahead of the 2021 awards show.

- According to Billboard, the youngest Grammy nominee was eight-year-old Leah Peasall, who was nominated in the 'album of the year' category in 2001 for her performance in the 'O Brother, Where Art Thou?' soundtrack. She went on to win the award
- The youngest musician in Grammys history to receive an individual Grammy nomination, rather than as a featured artist, was DeLeon Richards

## Quote unquote

The pandemic has been a magnifying glass for all our structural inequities and injustices, which exclude millions of our fellow citizens from a life of basic dignity. It has made clear that while markets and businesses have an irreplaceable role in a society, even more fundamental are the public goods and public systems. The agenda for the nation must include food, shelter, safety and basic social security; equitable and high quality public education and public health systems; care for the planet and all life on it; elimination of any kind of prejudice and discrimination; and jobs and livelihoods that are just and fair. If all of us come together — governments, industry, civil society, politicians, the average citizen — I am sure this agenda can be fulfilled. And then, we can truly hope to have a just, equitable, humane and sustainable society

—AZIM PREMJI, founder chairman, Wipro

# 5 habits to develop high social skills

Being socially active is always a plus, whether it is at your workplace, school, college, community, etc. While some are born to be social butterflies, others work their way through the social ladder. We bring to you some common habits of people with high social skills

## Maintain eye contact

The first thing people notice are eyes. So, maintaining eye contact during a conversation is crucial and shows that you are interested in talking to the other person. It is the first step towards effective socialisation.

## Listen to what others say

Having the ability to listen carefully with patience is a quality few people have. If other people are trusting you with their words, it is up to you how you receive them. Sometimes just listening to the person can be very com-

forting (to the person) rather than providing your inputs into the conversation. That is a peaceful sign of support that people really appreciate.

## Always have something to talk about

You don't want to appear clueless when someone tries to talk to you about a matter that you know nothing about. So, it's best to be updated about recent news, incidents and have an opinion on strong matters. This way, you will feel confident about meeting people and talking to them with-

**Maintain eye contact while having a conversation with anyone but don't stare; look interested and engage well**

out inhibitions or any kind of shyness.

## Be interested in people's matters

If you appear to be curious about a person's matter and indulge in conversations regarding them, people will regard you as an attentive person. Talk with people about their interests and passions and motivations; about what matters to them. If the person opens up to you effortlessly, your conversational ways are a success. Carry on and keep it up. <sup>TMW</sup>

## REASONS

# Why sports is important in a Student's Life

**S**ports are a crucial part of a student's growth and development. They help in the development of mental health and physical fitness of the body. Through participation in sports and games, a student gains various skills, experience and confidence that are helpful for developing their personality.

**GIVEN BELOW ARE THE REASONS WHY SPORTS AND GAMES ARE ESSENTIAL IN A STUDENT'S LIFE:**

**> IMPROVES PHYSICAL AND MENTAL HEALTH:** One of the main benefits of sports and games is to boost the physical and mental health of a student. Sports is played between teams in a healthy competitive environment, which ensures that the student remains active and fit. Outdoor sports like football, cricket, tennis, swimming, running,

etc, keeps the body and mind active. Indoor games like chess, badminton, and table tennis enhance the concentration levels of kids and also strengthens the immunity system of the body.

**> EMPOWERS STUDENTS WITH LIFE SKILLS:** Sports helps in developing life skills too. It enhances students' capabilities and helps them to have a better understanding of themselves. Sports also helps in developing social skills and understanding team spirit. They learn to interact not only with children of their age but also with adults like their coaches. Additionally, children acquire decision-making skills through various team activities.

**> LEARN TIME MANAGEMENT AND DISCIPLINE:** Constructive use of time and discipline is a major characteristic of any sports person. If a student plays a sport, he/she needs to show the commitment of time to be in a particular place at a particular time every day as a part of their routine. This teaches self-discipline to students.

## PANDEMIC ETIQUETTE

# How to politely ask someone to wear a mask

**H**ave you been in situations when you are in a grocery store and a person or many around are not wearing a face mask or not wearing it in the correct way (nose out, hanging around the jawline, etc). These things are bound to make you feel unsafe. So what is the right thing to do then? Is it okay to point out to people about their mask behaviour or just move away? Check these tips to get your Covid era etiquette right.

## THE RIGHT THING TO DO

The primary and the safest option is to stay away from all those people who are not wearing a mask or not wearing one correctly. Maintain a six feet distance and ensure you are following all the norms to stay safe from the infectious virus. It might be frustrating to do, but it is always a better idea than

make the other person less likely to change. This is a general rule. So, it is better not to get into any kind of conflict and maintain the distance.

**■ Avoid visiting areas that are crowded as there will always be some people who may not follow face mask rules. It's also a good idea to not visit public places at peak hours**

## HOW TO CONFRONT

If it's not possible to maintain the distance and you are in a high-risk area then be polite and discreet while asking people to wear their face masks; rage and threat will only make the matter worse. Request them to wear a mask for the safety of others. Make sure you are not loud enough to be heard by everyone. Talk from a safe distance so that only two of you can hear. We are still adjusting to this new lifestyle – so, say it with a smile!

confrontation. That's because people don't like to be schooled by others. So, if you will go and ask the other person to wear a mask, there are chances that they might not take it well and get offended. It is impossible to achieve any objective by violating, shaming or embarrassing others. Doing any of these things will

## COMMON COLOURS

SURYAKUMARI DENNISON, teacher, Aavishkar Academy, Bengaluru

Each group of words has a colour in common. The colours are linked to songs, symbols, people, places, films, fiction and figurative speech. Choose correctly from the four options.

**Example:** Mars, welcoming carpet, girl-wolf-grandmother, Moscow landmark  
A. Indigo B. Yellow C. Red D. Violet  
**Answer:** Red (Planet, Carpet, Riding Hood, Square)

**1** Ruskin Bond umbrella, marine mammal, lapis lazuli, Jodhpur  
A. Pink B. Brown C. Purple D. Blue

**2** Robin Hood, backstage room, send-off signal, Hulk  
A. Orange B. Green C. Grey D. Black

**3** US residence, polite lie, rare tiger, Jack London's 'Fang'  
A. White B. Brown C. Grey D. Violet

**4** Pikachu, referee warning, business directory, Beatles' submarine  
A. Blue B. Red C. Yellow D. Purple

**5** Helen Keller-inspired film, underground economy, petroleum, Horse 'Beauty'  
A. Indigo B. Green C. Pink D. Black

**Answers:**  
1) D. Blue 2) B. Green 3) A. White 4) C. Yellow 5) D. Black

## QUIZ TIME (MIXED BAG)

**Q.1) The members of the Rajya Sabha are elected by....**  
A. the people B. Lok Sabha C. elected members of the legislative assembly D. elected members of the Legislative Council

**Q.2) The position of a chief minister is....**  
A. similar to that of the Prime Minister B. identical to that of the President C. a combination of the position of the Prime Minister and President D. not constitutional

**Q.3) The members of the Rajya Sabha are elected for a term....**  
A. of six years B. determined by the state legislative assembly of a state C. of four years D. none of the above

**Q.4) The President can advance money to meet unforeseen expenses, pending authorisation by Parliament, from....**  
A. the Consolidated Fund of India B. the Contingency Fund C. both the above funds D. none of the above

## ANSWERS

1. C) elected members of the legislative assembly.  
2. A) similar to that of the Prime Minister 3. A) of six years 4. B) the Contingency Fund

## Upholding our rights and duties

The Constitution Day was celebrated at Delhi Public School, Mahendra Hills (Feeder School of DPS Nacharam), to honour and remember the father of the Constitution, Dr Bhimrao Ramji Ambedkar. It also aimed at spreading awareness of the Indian Constitution among students and instilling a sense of patriotism in them.

A special assembly was conducted on the significance of the Constitution Day as well as to reiterate the great work done by the members of the Constituent Assembly. The assembly commenced with a short prayer fol-

lowed by a prayer song, thought and word for the day. Thereafter, students presented the history of the Constitution. The guiding values mentioned in the Preamble and some interesting facts were highlighted through informative videos. All the students and teachers reaffirmed their commitment to the Constitution by taking the pledge.

Headmistress Neetu Gupta and academic coordinator of the school urged the students to abide by the Constitution and feel proud to be a citizen of a great country. The event came to an end with a rendition of the national anthem.

Constitution Day or Samvidhan Divas was celebrated at Delhi Public School, Nacharam to commemorate the adoption of the Constitution of India. A special assembly was organised on the occasion by the students of senior secondary wing to promote Constitutional values among citizens. The existence and successful survival of 'Democracy' in such diverse conditions is the result of having the Constitution as its backbone. The event began by invoking the blessings of the Almighty and reinforcing the significance and importance of the Constitution.

A short insightful video presentation about the preamble was followed by an engaging and informative role play titled 'Declaration of the Constitution of India'.

Principal Sunitha Rao addressed the students underlining the importance of the Constitution and the role of every citizen in upholding its dignity. She motivated the students to be

### Delhi Public School Nacharam

patriotic in their behavior and attitude. A presentation on 'Our Fundamental Rights and Duties' was an eye opener for many.

Senior vice-principal Nandita Sunkara urged the youth to act responsible and be a true Indian. She appreciated the efforts of the students for putting up a great show.

The event ended on a solemn note with all the students and teachers reaffirming their commitment to the Indian Constitution by taking the pledge and singing the national anthem.

## SHOWCASING THEIR METTLE IN SPORTS

### Gitanjali Devashray Hyderabad

Students of Gitanjali Devashray celebrated their annual Sports Day for the academic session 2020-21, with much fervour. The event, which was aired online, witnessed a plethora of athletic activities.

The rousing speech by associate director Madhvi Chandra, charged up the ambience with positivity and impetus. She enumerated how, in spite of the raging pandemic, the institution has been steadfastly executing every curricular and extra-curricular activity. From classes I to X, various events were conducted, adjudged and the winners were declared.

The Handing Over ceremony was also a part of the meet. Managing director Jai Karan administered the pledge to the Deputy Captains and declared the recipient house for the Overall Achievement Shield, with much aplomb. The

special class children were an integral part of the sports day showcasing their agility and ability.

The programme culminated with the announcement of the prestigious Dev Karan Award for the Best Student of class X (2019-20) which was awarded to Apoorv Dubey, and

the coveted Teachers' Awards were given to Sita Thakur, Rachna Misra, M Madhvi and Shivkala Pai. The institution also showed appreciation to teachers who had shown their loyalty and commitment to the institution for 10 years. They were Chitra Santosh, Smita Mathur and M Shraavan.

## Money: The First Cue to Math

### Gitanjali Devshala Hyderabad

Money is the ultimate 'real life' maths resource. At Gitanjali Devshala, teachers made the most of this tool to improve mathematics skills in students.

Using false currency denominations, students got hands-on experience in tending change as one does in the real world. The aim of this exercise was to increase street smartness amongst children to make them more agile and to make maths fun.

## IN THE LAND OF DISNEY

A trip to the greatest magical place in the world was indeed the most memorable one for me. A couple of years ago, my family and I went on a trip to Disney World.

On the first day we visited the Magic Kingdom and explored Tom Sawyer Island, and went to the Space Mountain roller-coaster. As we rode the Seven Dwarfs mine train, I came across the wooden barrels with glowing stones. We also went to the Haunted Mansion and Buzz Lightyear's Space Ranger Spin. I especially loved "The Frozen" and "The Beauty and the Beast" stage plays. Out of all, the most memorable was the Disney Parade in the Frontierland, also known as the Festival of Fantasy.

We spent the next day at the Hollywood studios. The Twilight Zone Tower of Terror and the Rock-Roller Coaster were the best. Nothing could beat the scary elevator drops and the stomach sinking roller coaster effects. We also checked out the Toy

Story mania and the Star Tours-The Adventures 3D space flight. The fireworks at the end of the day made our trip even more memorable.

**HUDHAYASRI, class X, Jain Heritage A Cambridge School, Kondapur, Hyderabad**

## The inspiring story of

## SAFA

**Diamond Jubilee High School Hyderabad**

Children with disabilities can face multiple forms of exclusion, which is unfortunate. But that is not the case with one of the students of Diamond Jubilee High School, Safa, who refuses to let her disability prevent her from doing what she wants to do.

Safa Harman, a student of class VII, was born with a disability in hearing and speech. Despite her difficulties to communicate, she started her academic journey in the school from class I with much confidence and spirit.

Safa excels in drawing and painting and has won several prizes in drawing competitions from the Telangana Forest Department, Rotary Club of Hyderabad, H.E.H the Nizam's Museum, Hyderabad, and from her own school at numerous occasions. She has always got support from her teachers and friends. Her vibrant personality and cheerful attitude have been true inspiration to fellow students. The school principal and teachers congratulate her and hoped to see her add many more feathers in her cap.

Safa runs her own YouTube channel where her brilliant artworks are displayed and continues to inspire others.

## There's no place like school!

Our schools shape us to become responsible adults. I treat my school with respect as it is the place of worship for me. The campus is indeed a memorable place where we find great mentors and lovely friends who bond for a lifetime.

It is said that "A good student is the product of a good school," and my school has excellent teachers who help me with studies, sports, and other extracurricular activities. I am really missing all the fun in this lockdown.

There are so many good things which are irreplaceable

in virtual classrooms. Take for instance making best friends or sharing snacks during breaks, playing in the playground or going to the library, celebrating special days and festivals when we get to dress up, eat and enjoy with besties.

Online classes are very educative and informative, and the new mode has its own advantages.

Schools always try to focus on our overall growth and transform us into healthy adults whatever may be the scenario. Hence, I miss my school a lot!

**G ASLESH, class VI B, Niraj Public School, Hyderabad**

### MY STORY

I wake up on a glorious new morning, Excited for the adventure that awaits. This is my fairy tale, And I will shine the brightest among all stars. Every day is a gift for me, I am not letting anything bad in my way. Everything that happens today is for a good reason, Because I'm the princess of this story.

**SRADDHA, class VI B, Unicent School, Nagole**

### FANTASIES

In mind, I live in fantasies, such don't reflect in realities. I want to fly to the highest, where the Skies and Oceans meet at the farthest.

I'm a sailor in the sapphire ocean, Sailing across those of Known and unknown A place where I could Ride on my Dragon, Flying Freely to a Utopia that's hidden.

My fantasies are like rare diamonds, Just like those shining stars Never have they been touched, But are meant to be believed.

**AYESHA ZOHA MASOOD, class X, Madina Public School, Himayatnagar**

**GURU DEVU: ANAHITA PAUL, class VIII B, Jain Heritage A Cambridge School, Kondapur**

### Painters' Gallery

**SPACE ODYSSEY: SUNISKA CHOUDHURY, class VI A, Delhi School of Excellence, Attapur**

**MASKED: ASRITHA E, class VI C, Bharatiya Vidya Bhavans (Vidyashram), Jubilee Hills**

**AQUATIC WONDERS: RISHITA, class VI A, FIITJEE World School, Hyderabad**

# IS FLAWED TECHNIQUE LEADING TO INCREASED CONCUSSION INCIDENTS?

In less than two weeks, the short ball delivery has knocked out Will Pucovski, Harry Conway and Ravindra Jadeja, while Cameron Green suffered a shocking blow to the head while bowling in Australia A's recent tour match against the Indians at the SCG. Former India captain Sunil Gavaskar has blamed poor technique for increased concussion incidents

England batsman Stuart Broad ducks a bouncer

Photo: GETTY IMAGES

## Batsmen committing themselves to front-foot

I think it is more to do with the fact that everybody have got their front-press where technically they are moving forward and it becomes a little bit difficult.

When English players used to come to Australia they would struggle as well because they were on the front-foot. In Australia you want to ride the bounce, to get on to the back-foot so you are able to ride the bounce which is not what a lot of players are doing today. They are so much on the front-foot and not able to transfer their weight and get out of their way. As a batsman you tend to get a little bit locked.

See, Virat Kohli plays the bouncer so well because he has that back and across movement, so he is sort of waiting on the back-foot for that short ball. David used to wait on the back-foot, back and across. Sachin Tendulkar had the minimal front press, therefore he was still balanced when he played the short ball. I think it is just a little technical thing which is why a lot of these people are getting hit on the helmet. You see most of the times, people getting hit on the helmet are in between the crease. You very seldom see anybody on the back-foot.

When someone's front foot is outside the crease and back foot inside, they will get hit. You will very seldom find a batsman getting hit if both his feet are inside the crease near the stumps. Because it has given the batsman that extra yard to either duck under the ball or sway out of the way. But that is what's not happening. That is the reason why they are getting hit.

Sunil Gavaskar, former Indian captain

## Helmets have made players carefree

We've got to come up with some sort of better helmets. I got hit a few times but I can never remember being concussed. If you play enough cricket, you always get hit in the head. I don't know why it seems to be a more spate of head-knocks these days. Whether people are playing poorly with their techniques because they have a helmet on their head they feel safe. I was hit quite a few times, I don't recall being concussed ever. Whether I was lucky with that, I don't know.

Allan Border, Former Australia captain

## Short-ball will definitely be used as a tactic: Hazlewood

Ahead of the four-match Test series against India, Australian pacer Josh Hazlewood maintained that bouncers are an integral part of their bowling plans, and can't really imagine a future where the bouncers could be banned due to the risk involved. "I think it's here to stay, to be honest," Hazlewood told the Sydney Morning Herald. "Whether it's top-order players (or lower-order batsmen)... I know when I go out to bat that's what I'm facing. I think it's an integral part of the game. We're obviously not intending to hurt anyone, it's about getting the wickets and cleaning up that tail as quick as we can. If that's the best option we'll probably go down that path."

## 'Bring it on' - Australia plot India's downfall under Adelaide lights

Top-ranked Australia are plotting revenge in their first day-night Test against fellow powerhouse India Thursday, as both teams grapple with injuries and selection dilemmas

Virat Kohli must lead from the front

Virat Kohli's men clinched their maiden series in Australia in 2018-19, triumphing 2-1, but the hosts were without leading batsmen Steve Smith and David Warner, who were serving year-long bans for ball-tampering. Smith, the world's number one batsman, is back and in form, although in a massive blow Warner has been ruled out of the opening Test with a groin injury.

"It's a great rivalry... bring it on," Australia coach Justin Langer said ahead of day one at Adelaide Oval, where more than 20,000 fans — 50 percent capacity, due to coronavirus restrictions — are expected. "We have a very senior team now and can't wait to get the show on the road." AFP

## Advantage Australia

- Despite losing the last series, Australia head into the four-Test showdown, where the Border-Gavaskar trophy and ICC World Test Championship points are at stake, with an apparent advantage before a ball is bowled. They are the world's most successful team in day-night Tests, having played seven and won all, including four in Adelaide.
- In contrast India, who were long reluctant to embrace the concept, remain novices, playing just one day-night Test in Kolkata last year. They thrashed Bangladesh in just over two days, limiting their exposure to twilight conditions where visibility can be an issue and the ball tends to swing as the sun sinks.
- Ajinkya Rahane, who will assume the captaincy when Kohli leaves, is a lock in the middle order alongside Vihari. But their opening combination remains in flux. Prithvi Shaw and Mayank Agarwal are the current openers but Shubman Gill's composed 65 under lights in the warm up gave selectors plenty to ponder.

## Arsenal players must take blame for 'terrible' form: Tierney

Arsenal defender Kieran Tierney says the players must take responsibility for the club's "terrible" form after the Gunners lost a fourth home Premier League game in a row. Burnley recorded their first-ever win at the Emirates as a Pierre-Emerick Aubameyang own goal secured a 1-0 victory for the visitors after Granit Xhaka was sent off for the hosts. The result leaves Mikel Arteta's side just five points clear of the relegation zone and without a Premier League win since November 1. AFP

It's not good enough. There is no way to disguise it. It's terrible, to be honest. It's not what we are, not where we are as a club.  
Kieran Tierney

## TEST YOUR KNOWLEDGE

**Q1:** Which of the following wicketkeepers hold the record of most stumpings in a career in One Day Internationals?  
a) Moin Khan ☐ b) MS Dhoni ☐  
c) Kumar Sangakkara ☐ d) Romesh Kaluwitharana ☐

**Q2:** In the historic boxing event Rumble in Jungle, which of the following heavyweight champions did Muhammad Ali challenge?  
a) George Foreman ☐ b) Mike Tyson ☐  
c) Joe Frazier ☐ d) Larry Holmes ☐

**Q3:** Which of the following players holds the record of highest partnership in Test cricket?  
a) Kumar Sangakkara and Mahela Jayawardene ☐ b) Andrew Jones and Martin Crowe ☐  
c) Sanath Jayasuriya and Roshan Mahanama ☐ d) Bill Ponsford and Don Bradman ☐

**Q4:** Which of the following players holds the record of highest overall runs partnership by openers in One Day Internationals?  
a) Shikhar Dhawan and Rohit Sharma ☐  
b) Gordon Greenidge and Desmond Haynes ☐  
c) Adam Gilchrist and Matthew Hayden ☐

d) Sourav Ganguly and Sachin Tendulkar ☐

**Q5:** In which year did Zlatan Ibrahimovic win FIFA Puskás Award for Goal of the Year for his bicycle kick against England?  
a) 2010 ☐ b) 2011 ☐ c) 2012 ☐ d) 2013 ☐

Photo: REUTERS

**Q6:** Which of the following players holds the record of most wickets in ICC Men's T20 World Cup?  
a) Ajantha Mendis ☐ b) Shahid Afridi ☐  
c) Lasith Malinga ☐ d) Saeed Ajmal ☐

**Q7:** Who is the first African Premier League goals?  
a) Sadio Mané ☐ b) Lakhdar Belloumi ☐  
c) Roger Milla ☐ d) Didier Drogba ☐

**Q8:** Who founded the Women's Sports Foundation in 1974 to increase opportunities for female participation in sports?  
a) Martina Navratilova ☐ b) Steffi Graf ☐  
c) Billie Jean King ☐ d) Martina Hingis ☐

**Q9:** Which of the following players holds the record

of most runs in a debut match in Women's ODIs?
