

Dipshiksha

JULY 2020

Don't let what you can't do stop you from doing what you can do.

– John Wooden

This is what Covid-19 pandemic has taught us all.

It won't be wrong if I say that the teachers were like sunshine on a rainy day. They adapted to this new normal just like fish to water. Of course, initially, they did face difficulties, mainly physical & emotional difficulties.

***"We know what we are, but we know not what we may be"* – William Shakespeare had said this, centuries ago and so true in the present scenario. Our team of teachers 'knew what they are i.e. TEACHERS but never knew that they are the true heroes in this time of pandemic. '**

Covid - 19 pandemic resulted in paradigm shift of curriculum delivery. Thus, work began on school improvement plans to continue a new, innovative and systemic approach to improving student achievement and retain school quality. The entire staff was in sync for a swift change in the method of curricula delivery

They experimented, learnt new ways of teaching, toggled with different Apps, pulled the children along and encouraged them to be independent too.

Based on feedbacks of the parents, it was realized that we needed to bring routine back to the children and face to face interaction with teachers and classmates was very important to the students. After having tested all platforms we decided to go on Zoom as it had the best conferencing tools. Major training sessions were held at all levels. Every single staff including the co-curricular teacher and nurses were trained on the same.

Battling all the challenges posed by the this shift to online classes, the teachers and students of DPS-Miyapur have risen to the occasion and have managed to tackle the most of the above mentioned challenges.

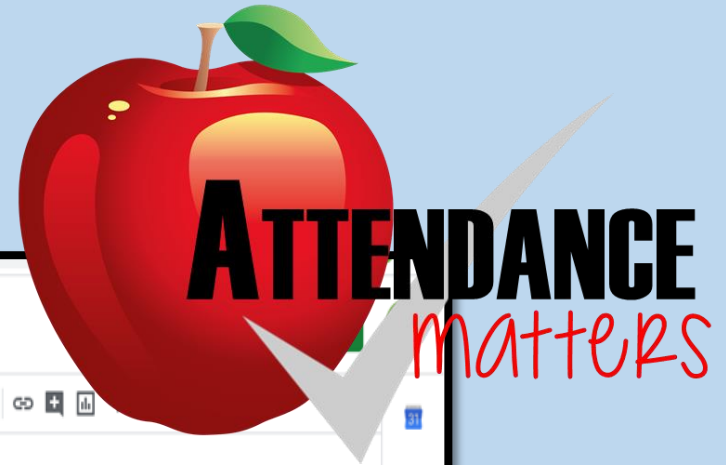

To keep students engaged teachers use a variety of aids such as Physical White board, Videos, Audios, PPTs, digital writing pads and Whiteboard to disseminate knowledge. Teachers and students engage in demonstrations thus applying knowledge to real situations.

Students are divided into smaller groups through the Breakout Rooms option to further their understanding of information. Teachers have researched and used various online platforms such as Mentimeter, Kahoot, Quizizz to gauge students' understanding through fun and learn methods. Teachers have downloaded and used many PPT templates available online to make testing fun and interactive.

**None of us is as smart as all of us.

Animal Mask

making activity by Science teachers – the kids introduced themselves to the other animals, and they talked about their eating habits and their category like whether they belong to herbivore or carnivore or omnivore.

It is heartwarming to see how kids are adapting to the new normal. A child used **virtual backdrop** to explain Digestive system in the class.

Landform activity of grade 4- Integrating Art

Undaunted by the present circumstances, the students and teachers of DPS-Miyapur have proved that nothing can stop them from carrying on the process of teaching and learning. They have reinvented and adapted themselves as per the situations and will continue to do so

READING STRATEGY : Teacher using a video, where children learn diphthongs and parents are involved FOR AN ONLINE CLASS to play a game WITH THEIR WARDS on word wall

Story time continues to play a major role in teaching different things.

Once upon a time, in a jungle there was a **big** elephant and a *small* mouse. The **big** elephant would wander in the forest happily eating bananas and fruits.

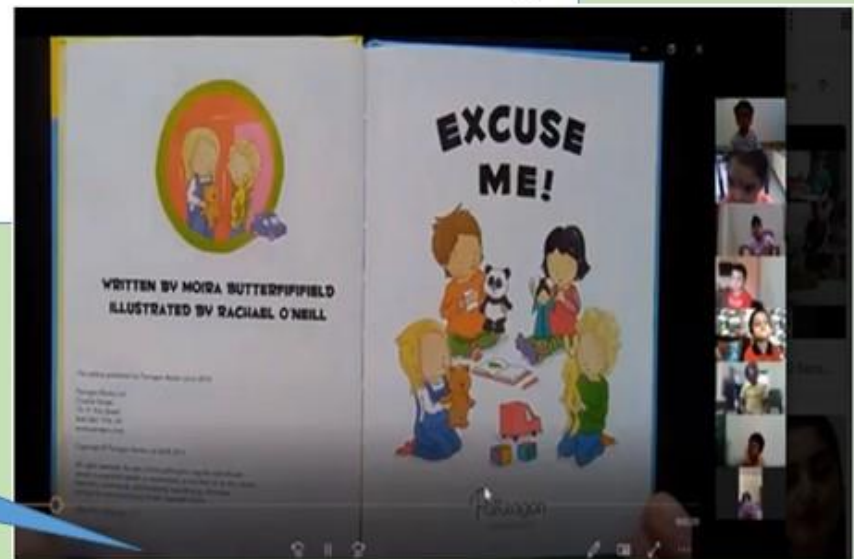

One day the **big** elephant fell in a **big** hole and the legs got caught in a net. It was not able to move out and free itself. It started to trumpet.

A *small* mouse was watching this from a distance.

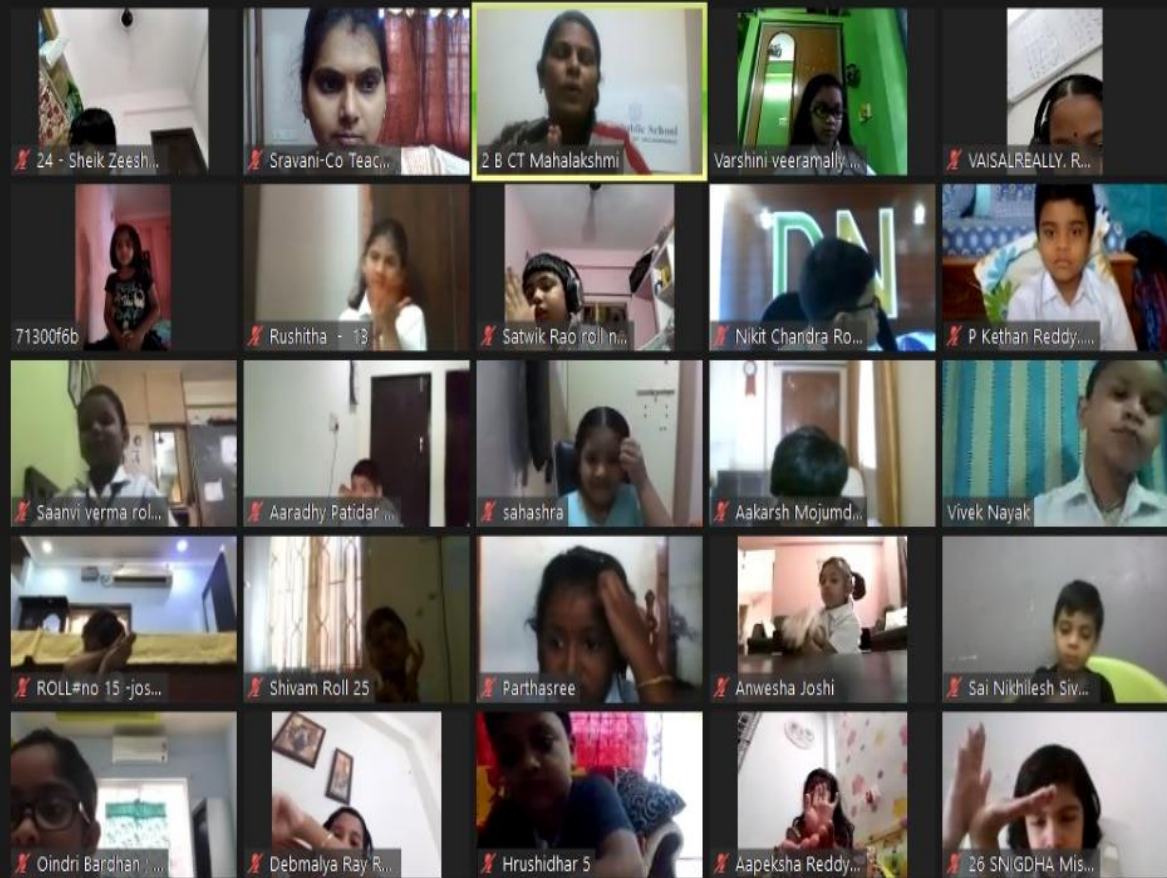

It slowly came to the **big** angry elephant and said, "Wait let me help you." Then the *small* mouse with its *small* teeth started to chew the strong rope of the net. It chewed and chewed and chewed and then the **big** elephant's legs were freed.

So children, what story did I tell you today?
Yes, about a **big** elephant and *small* mouse.

Created
Stories to
introduce
concepts in
LKG:-

Similar stories were created to introduce other concepts like full-empty; long-short; tall-short; heavy-light; far-near etc.

Vocabulary words

- Compare - to weigh against
- is greater than - $6 > 2$
- is less than - $2 < 6$
- is equal to - $2 = 2$

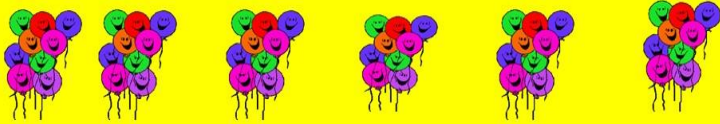

Remember the result for each pair of things is always 0 when the result is zero & bigger number is > or smaller is <

While the class teacher is busy taking the class, co teacher monitors the class

Appreciation slides have been created

ANIKA

Purple Day (LKG) – making a bunch of grapes using safe homemade play dough (a video to make play dough at home, recorded by our clay modeling teacher, was shared with the parents).

Link : <https://youtu.be/xjjPD7QshYs>

Every week we share a link for UKG kids to create something over the weekend with the homemade clay, like birthday party objects; sea animals etc

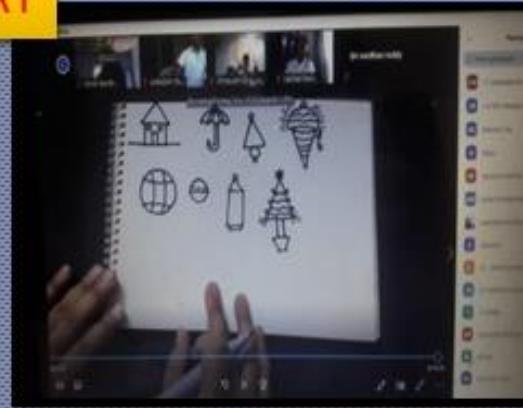

Colouring activities are being done too, guided step by step, stroke by stroke.

Prayer in the morning and at the end of the day

ART

Co-curricular Activities

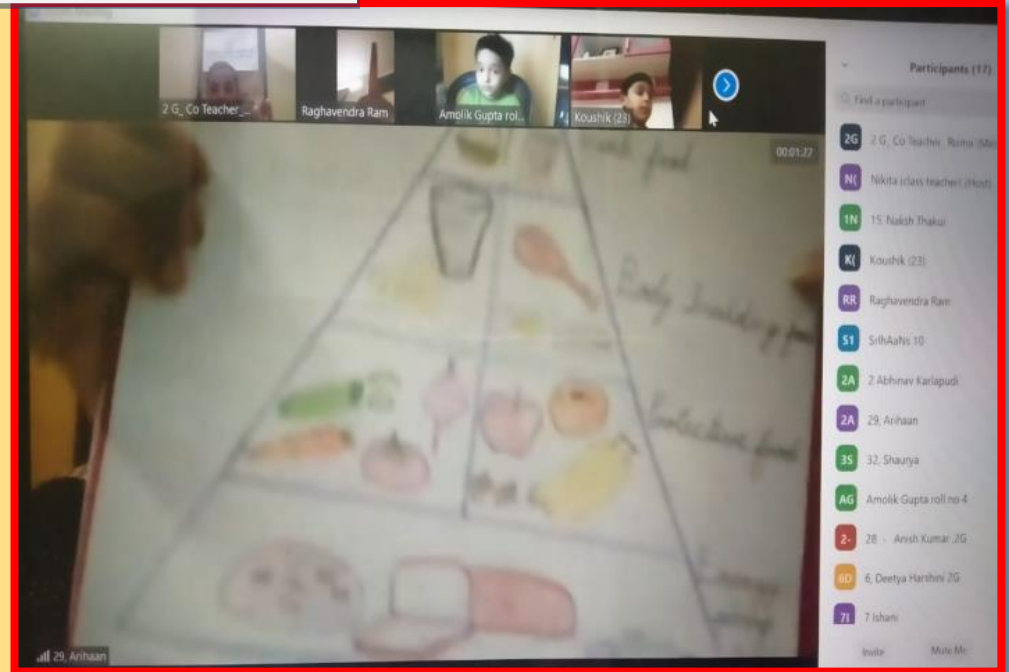

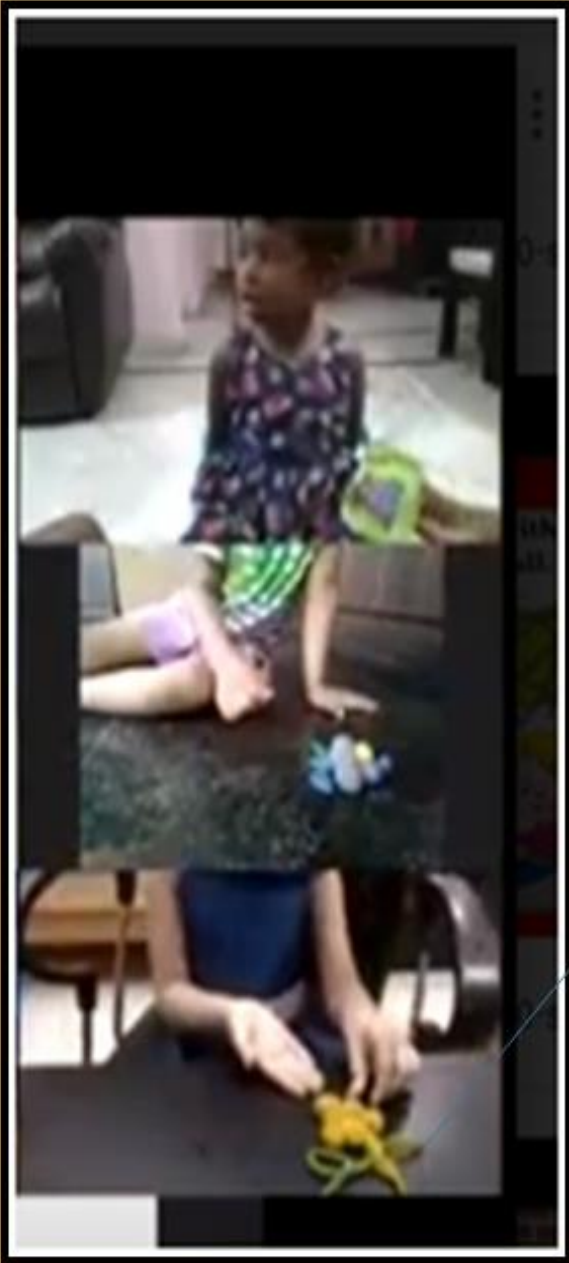

MUSIC

YOGA AND DANCE

Scrap book activity for teacher's appraisal

Clay modeling- To help the kids improve gross motor skills

The kids were made to colour a page in the Creative Art Book. Then parents were requested to take a photo/ scan of the same and upload/share it through the google form link given. The images were shared with the judges (Art teachers).

Colour Splash – UKG inter-house competition

Every week day wise plan of fun activity is shared that the kids are enjoying, using things like a basket, potatoes, a towel etc

DELHI PUBLIC SCHOOL, METAPUR
DAY WISE PLAN FOR UMS-4th JULY to 10th JULY 2020-ACTIVITY SESSION

"We don't stop playing because we grow old, we grow old because we stop playing." George Bernard Shaw

Dear Parents,

These activities will be done after the warm up session. We request you all to keep the following things ready for the activity. The following materials are required:

DAY	Materials Required	Reference Picture
DAY 1 MONDAY 06.7.2020	Big Bowl of water- 1 Pencil- 1 Plates- 2 Rubber bands- 10	
DAY 2 TUESDAY 07.7.2020	Plate- 1 Plastic box- 1 Waterline- 1 Cotton balls- 5	
DAY 3 WEDNESDAY 08.7.2020	Basket- 1 Five Balloons or Five Balls or Five soft toys	
DAY 4 THURSDAY 09.7.2020	Bowl full of rice- 1 Plate- 1 More good biscuits- 5 (Because it's easy for the children to hold it in their mouth as any circle shaped biscuit which is bigger in size)	

Note: the parent did not have chalk piece to draw the serpentine line, hence used a dupatta to mark the path.

my online class experience

by: Akshitha vii A

I like my online classes and am grateful to my teachers, and parents. I love the activities we have and getting to see my classmates, and teachers. I like all my classes but the thing I hate the most is when the electricity goes or my internet is unstable. It's not like going to school but it is really fun!

MY ONLINE CLASS EXPERIENCE

I really thank my parents for giving me time for online classes. Then I would like to thank my teachers for teaching us in these difficult times. Special thanks to government people to start all these online classes during corona pandemic 🙏. I am enjoying online classes a lot it has been a very good experience.

St Michael's School and Delhi Public School-Miyapur Project

8th May 2020

Dear Ms Sarkar

I am writing to you to thank you and Ms Kapur for your involvement in our amazing project where we have been able to share our messages of hope and togetherness across land and oceans.

The video we would like to share with you can be found here: <https://youtu.be/fgl5zpGD5ag>

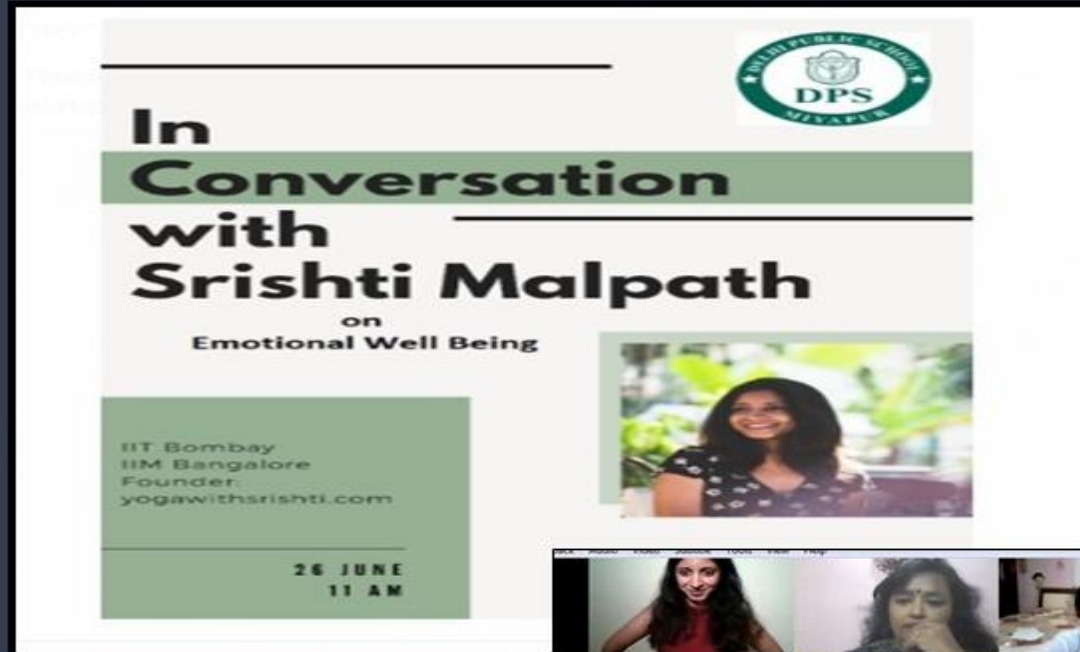

We would like to thank you, your staff, your parents and your children for the amazing video you have shared with us. It is truly inspiring and I know that our children will love watching it with their families. The most important thing we can all do at this most challenging of times is to stay connected with one another. It is very reassuring to know that we have friends in India who are remaining positive despite experiencing the same circumstances as we face.

It has been a great pleasure to work with your amazing school. I very much hope that we get the opportunity to work alongside each other again in the future.

Yours sincerely

David Morley
