THE JOY OF LEARNING

“ **SERVICE BEFORE SELF** ”

DELHI PUBLIC SCHOOL SOCIETY – THE BACKBONE OF THE EDUCATION SECTOR

In the year 1949, Delhi Public School Society set out on a mission to build the nation through education. With this noble intent, the Society began to establish world-class academic institutions that would create a community of bright young minds to lead the country’s growth and progress. Today, after having successfully founded over 200 reputed schools in India and abroad, the Society is proud to be fulfilling its mission.

Delhi Public School at Hyderabad, Secunderabad and Miyapur are testimony to the excellence and high standards of DPS Society. The schools provide the right environment with a perfect balance of academics, sports, extra-curricular activities, and creativity for children to develop holistically.

Delhi Public School’s motto of “Service before Self” instills the right values in students as they step into the future. This and the holistic approach adopted by the schools ensures that students are not just all-rounders, but fine human beings.

**“CREATING FUTURE
GENERATIONS TO ENRICH
THE WORLD.”**

Message from Chairman

A child’s mind is like fertile soil – rich, vibrant with life and eager to absorb every experience that comes within his or her universe. At DPS, it is our endeavour to create a nation of talented, bright and creative future generations who will contribute positively to enrich the world.

We are committed to offer the best education to each and every student from diverse backgrounds. DPS hones leadership qualities in every child and at the same time makes them aware of their role as socially-conscious citizens of the future.

Padma Bhushan V.K. Shunglu
Chairman
DPS Society, New Delhi

**“EMPOWERING STUDENTS TO
FLOURISH IN A MULTITUDE
OF WAYS.”**

Message from Academic Director

Every moment in life brings new possibilities, opportunities for success and boundless joy which is compounded when we are about to realize our goal. The meticulously nurtured learning environment in DPS is free of fear and stress. It enables and encourages new ideas to flourish. Students are encouraged to persist in their quest for learning and acquiring the requisite skills to excel in our information driven, safe and child centric school. Co-scholastic and sports activities broaden the opportunities for students at school to manifest their talent, practise leadership, hone life skills and challenge themselves.

Here, we would like to assure you that our schools will always prove themselves to be the place where every child is precious and appreciated for his or her intrinsic qualities. We equip our students with exceptional values and academic excellence.

Our Alumni have found placement in top universities in India and abroad covering a broad range of disciplines. Most of them now work with prestigious organizations in India and abroad. Some of them have emerged as enterprising businessmen and businesswomen too. Their success stories validate and fuel our efforts.

Looking forward to receiving your child under our caring umbrella.

Best regards,
Rekha Aggarwala
Academic Director

“WE PREPARE STUDENTS FOR LIFE”

Education is the passport to the future, for tomorrow belongs to those who prepare for it today. We, as a school, firmly believe and stand by this statement and equip our children to not just face the world, but to win and compete in this world fraught with uncertainties.

Through our model of holistic development, we prepare our children for life itself by empowering them to grasp opportunities and giving them enough space to hone their skills and talents.

We inculcate in our children a passion for learning ensuring seamless and boundless growth. And if you are determined to learn, we promise no one can stop you.

Geetha Vishwanathan
Principal
DPS, Hyderabad

“OUR ROLE IS TO BUILD THE FOUNDATION FOR A CHILD’S FUTURE.”

We, at DPS, believe that education plays the most crucial and transformative role in an individual's life. The first years of life that are spent in a school lay the foundation for a meaningful life. Commitment to excellence, health and well-being, resilience, compassion, integrity, critical thinking, social & environmental responsibility, participative global citizenship - the list of attributes that we, as educational warriors, help foster and cultivate, is very long. Additionally, we also help students develop skills that help them respond and contribute to a world that is in a constant state of flux. We also believe that this tall mandate can be achieved only through two means. The first is an effective parent - school partnership which is the cornerstone of a successful educational programme. We see parents as our partners in the sacred task of educating young minds. The second critical factor is the presence of a highly committed, well skilled and progressive faculty. DPS is committed to the presence of such mentors.

Finally, we believe that education is an exciting, joyous and challenging journey into the unknown. We invite all to join us on this journey.

Shailaja Gopinath
Principal
DPS, Secunderabad

“OUR MISSION IS TO TAP A CHILD’S FULL POTENTIAL.”

The whole purpose of education is to turn mirrors into windows. We need to create a kind of ecosystem that shall help in achieving full human potential, developing an equitable and just society, and promoting national development.

At Delhi Public School, we too are evolving each year to make learning more experiential, holistic, integrated, inquiry-driven, discovery-oriented, learner centered, and, of course, enjoyable. We shall strive to liberate the intellect, unlock the imagination that shall be the key to prosperity, and open a world of opportunities, making it possible for each child to contribute to a progressive, healthy society.

Gowri Sarkar
Principal
DPS, Miyapur

DEEP COMMITMENT TO A CORE PURPOSE

At the heart of Delhi Public School is a resilient core purpose which is to provide the right opportunity and ideal environment for a child's all-round development. Driving these are the institution's steadfast vision, objective and mission.

VISION

To equip our students with the ability to face the world on their own with courage and confidence.

OBJECTIVE

To make learning a crucial source of the child's social behaviour and personality.

MISSION

To provide value-based education that enables the achievement of the objective.

HOLISTIC APPROACH TO EDUCATION

At DPS, we follow the CBSE curriculum that focuses on holistic development. In line with this, we ensure that the education we offer goes beyond imparting knowledge. As a result, our schooling is about academic excellence through high standards of teaching, character building through instilling timeless values, and making the child future-ready through the right exposure. All aspects of our three campuses in the twin cities are aligned to this defining truth with each institution paving the way for students to achieve excellence.

Teachers at DPS campuses don't merely teach but inspire learning and nurture every young mind with care. Backing them is the finest infrastructure, a vibrant environment and result-oriented teaching methodologies that ensure holistic excellence. As a result, every student of DPS is an all-rounder who is well-informed, confident, and future-ready.

HUMAN RESOURCE DEVELOPMENT CENTRE (HRDC) TO ENHANCE EXPERTISE

DPS Teachers are happy to say that they are learners too. With excellence being a constant pursuit, the three DPS institutions keep pace with the evolving environment through the Human Resource Development Centre (HRDC) exclusively designed for faculty members.

The Centre provides Teachers with the opportunity to enhance their knowledge and be up to date with the latest best practises. Experts in the field of education and from the academic fraternity as well as within the DPS family, share their knowledge and new learnings with the faculty members. This enhances the expertise of the Teachers who incorporate their learnings as they impart knowledge to young minds.

At the heart of good education is the Teacher who turns a student into a curious and enthusiastic learner for life. That's why the selection and training of our Teachers is a rigorous process which begins with hand-picking the best of the best.

The chosen Teachers then go through comprehensive training programmes that further sharpen their skills and equip them with what it takes to be a DPS faculty member. The dedicated and highly accomplished Teachers work along with the students and empower them to explore, experience and excel. As a result, strong Teacher-Student bonds are built at our schools through mutual respect and understanding.

Another important aspect that paves the way for participative learning is the usage of hi-tech digital learning interfaces that establish new standards in teaching. Our holistic and child-centric approach has yielded the best outcomes over the years. And has brought the institutions several awards and recognitions.

ROBUST INFRASTRUCTURE THAT STIMULATES ALL-ROUND GROWTH

At DPS, our commitment to providing holistic education ensures that we nurture young minds in an ideal learning environment that stimulates learning, encourages creative thinking, and fosters self-confidence. Each DPS campus boasts of modern infrastructure which is defined by:

- Spacious classrooms that are bright, cheerful and well-ventilated
- Modern teaching aids including smart boards and audio visual equipment
- Computer and Science Labs with multimedia computers and internet connectivity
- Well-stocked library that houses books, periodicals, magazines, newspapers and digital books
- Healthcare clinic with trained staff to provide medical treatment if needed and to regularly conduct health checkups to monitor students' health and growth.
- Sprawling playgrounds with sports facilities for various games and indoor activities
- Full-fledged facilities for visual and performing arts including art & craft, dance, and music
- Transportation facilities that enable convenient commuting across the twin cities
- Well-designed skating rink
- Aerobics classes
- Karate and Taekwondo classes

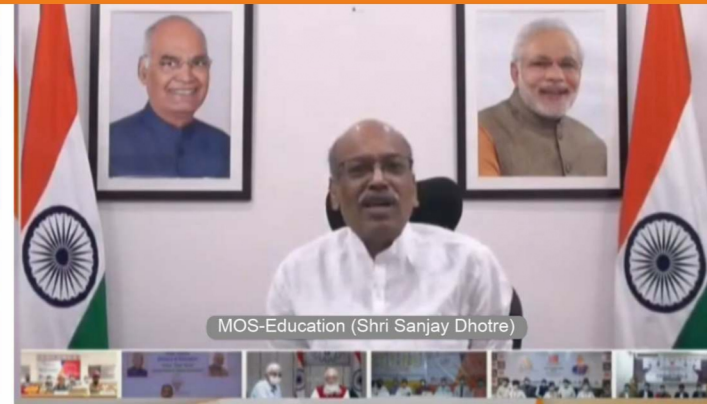

At the senior secondary level the overall thrust of curriculum and pedagogy is to move the learning process towards real understanding and towards learning how to learn - and away from the culture of rote learning as is largely present today. The aim of education will not only be cognitive development, but also building character and creating holistic and well-rounded individuals equipped with the key 21st century skills.

We offer varied options across Mathematics, Science, Commerce & Humanities streams for grade XI and XII along with the 3 main subjects to help explore new avenues.

Grade XI & XII Mathematics, Science, Commerce and Humanities streams

Out of 1.25 lakh entries declared **National winner at TOYCATHON-20** organized by the Ministry of Education's Innovation Cell with support from AICTE, Ministry of Women and Child Development, Ministry of Commerce and Industry, Ministry of MSME, Ministry of Textiles, and Ministry of Information and Broadcasting. Innovation Ambassadors- Faculty trained by the Ministry of Education, AICTE, and Innovation Cell of India.

Declared the **Best School - Telangana Zone** by the Science Olympiad Foundation.

Rediscovering our roots and our cultural Identity with **young INTACH** and **HFAC** programs.

Principal conferred Vidhya Ratna title by the Honorable Governor of Telangana and Honorable Lt. Governor of Puducherry Dr. (Smt.) Tamilisai Soundararajan in recognition for her outstanding contributions in **enriching the Indian culture and Education**.

Adjudged the **Best Principal - Telangana Zone** for the year 2022 by the Science Olympiad Foundation.

SPORTS - A KEY AREA IN HOLISTIC DEVELOPMENT

As part of DPS' holistic approach to education where our mission is to nurture healthy bodies and healthy minds, we place great emphasis on sports. In line with this, each campus has a wide range of sporting activities for students to choose from with the help of qualified trainers who spot talent with precision. Once a child displays flair for a particular sport, we go all out to offer a structured training programme that further shapes excellence.

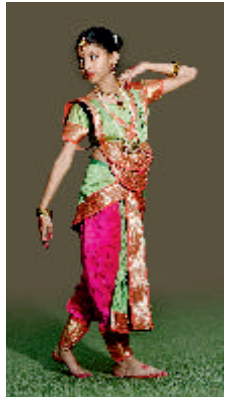

Apart from sports like basketball, football, cricket, and tennis, DPS offers interesting activities like Karate, skating, and aerobics that promote all-round excellence to an even greater extent. Sporting events that are held regularly on and off campus provide students with good opportunity to showcase their talents.

SHAPING CONFIDENCE FOR LIFE

At DPS, we believe that every child has potential that is waiting to be tapped. We provide an array of activities for students to engage themselves in and discover their talent. From music, dance, dramatics and debate to creative writing, art and craft, experts in the field guide the students and hone their skills. Students are encouraged to participate in intra and inter-school events at regional and national levels. All of these activities give students much-needed confidence and make them future-ready to face the world.

CREATING SOCIALLY RESPONSIBLE STUDENTS

Our holistic development approach encompasses the vital area of social responsibility where we focus on timeless values such as giving, sharing, religious tolerance, and environmental awareness that go towards creating socially responsible citizens.

DPS provides opportunities for students to interact with the elderly and the economically backward through visits to old age homes, slums and villages. These interactions sensitise our students to needs of people who are socio-economically disadvantaged and gives them the exposure of a lifetime. On these visits, students educate people on hygiene, civic consciousness, and environmental responsibility through skits, talks and road shows.

At DPS, we encourage students to participate in various social awareness programmes where they gain exposure to expert talks, debates and discussions. All these initiatives result in shaping children who are well-grounded and well-informed.
